ONE MORE EDITOR  
IS CLASSED LUCKY

At the big Coleman carnival on  
Monday night, the ticket for the bed-  
room suite was drawn for H. T. Halli-  
well, editor of the Coleman Journal.

Now, anyone desiring a real rest  
while waiting for a real printing job  
may rest easily.

H. T. says that's his first piece of  
luck since his good wife before mar-  
riage said "I will," but, the ticket was  
in his daughter's name.

A number of fans from Hillcrest  
and Bellevue are contemplating at-  
tending a convention of fish and game  
associations to be held in Calgary  
shortly.

### HILLCREST ARE

#### FIRST AID CHAMPS

Hillcrest No. 2 team, with a total of  
1,135 points out of a possible 1,200,  
won the First Aid competition held in  
Bellevue, Monday for the Crow's Nest  
Pass and district, and the Camrose  
Coal Company's team, with a score of  
1,088 points, was second.

The McGillivray team from Cole-  
man was third with 1,017 points and  
the Blairmore team and Hillcrest  
No. 1 team were fourth and fifth  
with 984 and 902 points respectively.

Judges were: J. T. Puckey, Fernie,  
government mine rescue superin-  
tendent; E. H. Starr, proprietor of  
Starr's Ambulance and First Aid  
Services, Calgary, and A. H. Hender-  
son, Calgary, inspector and vice-pres-  
ident of the Calgary First Aid centre.

Members of the teams were: Hill-  
crest No. 2, Albert Marks, captain;  
Bill Makin, Bob Henderson, Alex.  
Grant and Aden Caswell; Camrose  
Coal Company team, J. L. Hill, cap-  
tain, R. Jackson, J. Brown, V. Mrok-  
via and J. Miskaw; Blairmore team,  
E. Norville, captain, A. M. McKay, B.  
Rinaldi, J. A. McKay and Alex. Rae;  
Hillcrest No. 1, Fred White, captain,  
Tommy Morgan, Richard Parak, John  
McDade and Lambert White; McGilliv-  
ray team, K. McCulloch, captain,  
William Lonsbury, A. F. McClinchok,  
William Anderson and Thomas Bren-  
nan.

The competition was held under  
the supervision of J. McDonalds,  
general superintendent of mine res-  
cue and First Aid in the province, and  
was considered a success by all officials.  
Sam Radford and Tony  
Costanzo acted as spare participants.

Fires in the Castle River district  
are about out. Viewing the country  
swept by the fire it is interesting to  
note that the beauty of the trail lead-  
ing from Elk Lodge to Kelly's camp  
has not been marred. The fire was  
confined to the south side of the trail.

The appeal of two Coleman citizens  
against a conviction before Magis-  
trate Gresham on the charge of fur-  
nishing intoxicants to juveniles was  
heard and conviction upheld by Judge  
McDonald on Tuesday, who ruled that  
they pay fines of \$75 and \$25 and  
costs respectively.

## "THERE'S NO PLACE LIKE HOME"

Mid pleasures and palaces though I may wend, I find the home merchant  
a much valued friend.

The mail order catalogue woe me in vain, for buying without seeing  
gives me a pain.

The home merchant credits till pay day arrives; he knows all the whims  
of his friends and their wives.

His overalls wear like the buckskin of old, his buttons aren't brass if he  
says they're gold.

Of every community he is a part, and even the kids know the path to his  
heart.

He boasts for the chapel, the lodge and the school; community uplift is  
ever his rule.

And even the hockey and basketball teams look kindly on him in athletic  
dreams.

Let's rather give him at my elbow each day than to deal with some one fur-  
lous away.

He's the thing mutual and stand by our friend; there's no place  
like home for the money we spend.

—Bradford Optimist.

### LARGE — CHAPPELL

One of the prettiest Blairmore wed-  
dings in recent years was held at 10  
o'clock Monday morning at the home  
of Mr. and Mrs. W. H. Chappell, when  
their younger daughter, Gertrude  
Doreen, was united in marriage to  
Robert Richard Large, second son of  
Dr. and Mrs. H. L. Large, of Cran-  
brook, B.C.

The home was beautifully decorated  
throughout with a profusion of gladi-  
oli and sweet peas. The fireplace,  
banked with evergreen, fern and au-  
tumn leaves, with white wedding bells  
overhanging, made a delightful set-  
ting for the wedding ceremony.

The bride, who was given in mar-  
riage by her father, entered to the  
strains of the bridal chorus from Lo-  
hengrin. She was charming in a floor-  
length gown of white spiderweb silk  
lace over taffeta, cut on princess lines,  
with an elbow length cape of the same  
material edged with pleated silk net.  
A coronet of white roses and white  
sandalia completed her ensemble,  
with which she carried a shower bou-  
quet of Johanna Hill and Talisman  
roses. Miss Irene Chappell, sister of  
the bride, acted as bridesmaid, and  
was becomingly attired in a floor-  
length gown of pale green silk net  
over taffeta and carried a sheaf of  
cream-centred coral gladioli tied  
with silver streamers. Silver sandals  
and a bandeau of coral roses and sil-  
ver ribbon completed her ensemble.  
The groom, who is a graduate in  
pharmacy of the University of Al-  
berta, was supported by his brother,  
Dr. J. M. Large, of Kelowna, B.C.

Rev. A. E. Larke, of the Blairmore  
United church, officiated, and Miss  
Madeleine Chardon played the wed-  
ding music. During the signing of the  
register Mrs. Gordon Steeves beauti-  
fully rendered "O Promise Me."

Following the ceremony a deli-  
cious wedding breakfast was served.  
The table was centred with a beau-  
tiful three-tiered wedding cake in a  
bell of smilax, surrounded by pale pink  
tapers in silver sconces and shaded  
pink sweet peas in silver vases. Miss  
Alma McKay, aunt of the bridegroom,  
and Mrs. John Angus MacDonald pre-  
sided, assisted by Misses Marion Mac-  
Donald, Ina Standeford, and Ruby  
Meers.

The toast to the bride was proposed  
by Rev. A. E. Larke, and responded to  
by the bridegroom. Mr. Gordon  
Steeves proposed a toast to the  
bridesmaid and Dr. J. M. Large ably  
replied.

For travelling, the bride chose a  
Guardsman blue three-piece ensemble  
with touches of scarlet, and navy ac-  
cessories. The happy couple left for  
Spokane by way of Logan Pass, and  
upon their return they will take up  
residence in Blairmore, where they  
have a host of friends. The bride,  
having lived here all her life, is a pop-  
ular member of the younger set and  
of musical circles.

The following is a list of those pre-  
sent: Mr. and Mrs. W. H. Chappell,  
Miss Irene Chappell, Albert Chappell,  
Clifford Chappell, Dr. and Mrs. H. L.  
Large and Fred Large, Cranbrook,  
Dr. J. M. Large, Kelowna, Miss Alma  
McKay, Cranbrook; Mrs. Margaret  
Deering, Bellevue; Mrs. Robert Car-  
ney, Pincher Creek; Mr. Clifford Mil-  
lar, Blairmore; Miss Ruby Meers and  
Mr. Don Dickson, Calgary; Mr. and  
Mrs. Gordon Steeves, Mrs. John  
Angus MacDonald, Rev. A. E. Larke.

### SMYTH—WOOD

A quiet wedding was solemnized at  
Cowley on Thursday, September 3rd,  
at the home of Mr. and Mrs. J. R.  
Wood, when their eldest daughter,  
Barbara Ila, was united in marriage  
to Mr. Eddie I. Smyth, Rev. John  
Wood, of Hillcrest, performing the  
ceremony.

The bride, who entered the room on  
the arm of her father, was charm-  
ing in a simple dress of white crepe,  
and carried a bridal bouquet composed  
of red roses and carnations. She was  
attended by her sister Marie, and the  
groom by his brother, Mr. Harry  
Smyth.

The wedding march was played by  
Mr. and Mrs. Arthur Tustian, sister  
and brother-in-law of the bride. Dur-  
ing the signing of the register, Miss  
Dorothy Huntley, of Rocky Mountain  
House, sang "I Love You Truly."

After a buffet luncheon, the happy  
couple left by motor for Yellowstone  
Park for a brief honeymoon. The  
bride travelled in a tailored blue cos-  
tume, with matching accessories. On  
their return, they will live on the  
groom's farm near Cowley.

### LOAN FOR HOMES

A plan under which the Dominion  
government will guarantee lending in-  
stitutions against losses up to a maxi-  
mum of \$50,000,000 to home owners  
for repairs and improvements on  
dwellings was announced by Prime  
Minister Mackenzie King and A. B.  
Purvis, chairman of the national com-  
mission on employment and relief, on  
Wednesday.

The government is also working on  
a policy of providing low rental  
homes in urban centres, possibly in-  
volving slum clearance and the con-  
struction of houses of a class suitable  
for those whose incomes enable them  
to purchase when convenient pay-  
ments can be arranged.

All the above will be in conjunction  
with and dependent upon provincial,  
municipal and community co-opera-  
tion.

### CANADIAN NEW BOND ISSUE

Finance Minister Charles Dunning  
announced Monday night a new \$100,-  
000,000 issue of Dominion bonds  
would go on the market Thursday  
(yesterday), with subscription books  
opening at the Bank of Canada.

The loan takes the form of 4 1/2  
years one per cent notes due March  
14, 1941, offered at 98.5 to yield 1.40  
per cent to maturity and three per  
cent perpetual bonds callable after  
September 15, 1936, priced at 96.50 to  
yield 3.11 per cent.

Proceeds of the issue will be used  
for refunding Dominion obligations  
totalling \$73,168,200, and for general  
purposes of government.

The two maturing issues to be re-  
funded are as follows: \$16,989,000 two  
per cent bonds, due October 15th,  
1936, and \$56,179,200 five per cent  
bonds, due November 15th, 1936.

The loan was oversubscribed in less  
than five hours.

Mr. and Mrs. James (Puffy) Kemp  
and some of their friends were down  
from Kimberley during the week.

Misses Madeleine Chardon, Ina  
Standeford, Marion MacDonald, Alma  
Martini and Mr. Jack Kerr, Blairmore.

### BELLEVUE FLOWER SHOW —AGAIN BIG ATTRACTION

The weather man did not treat  
Bellevue quite as favorably as might  
have been, but in spite of the cool-  
ness of the day the turnout for the  
sports, First Aid competitions, flower,  
vegetable and art show, and the dance,  
was far larger than in previous years.

The general display of flowers, veg-  
etables, etc., in the big arena was a  
treat to witness, many declaring it as  
superior to any they had seen in larg-  
er and more suited centres.

Prize awards were listed as follows:  
Best display of vegetables from  
garden, G. W. Goodwin; best collec-  
tion, two of each of between eight and  
sixteen varieties of vegetables, N.  
Spoon; potatoes, R. Glover, S. Hum-  
ble, G. Cousins. Collection of pota-  
toes (six each of round white, round  
red, kidney white and kidney red), G.  
Cousins. Six of any other variety po-  
tatoes, G. Cousins; six of any variety  
marketable potatoes, S. Humble.

Cauliflower, G. W. Goodwin; conical  
cabbage, J. Dawson; flat cabbage, J.  
Curry; round cabbage, G. Cousins;  
Savoy cabbage, G. Sirett; red cab-  
bage, G. W. Goodwin; curly kale, G.  
Cousins; kale rabi (white), J. Cur-  
ry; kale rabi (blue), E. Cole.

Turnips: Swede, W. J. Harris;  
white, G. Cousins; yellow, T. Clayton;  
carrots, long, J. Curry; short, G. Cous-  
ins; intermediate, W. J. Harris; leeks,  
G. W. Goodwin; red from seed, G. K.  
Sirett; yellow from seed, A. Hall-  
worth; shallots, T. Clayton; multi-  
pliers, T. Clayton; pickling onions, N.  
Spoon.

Beets: long, G. Cousins; any var-  
iety, G. Cousins; parsnips, W. J. Har-  
ris; salsify, J. Curry; radish, G. W.  
Goodwin; celery, G. W. Goodwin; cel-  
ery (red), G. W. Goodwin; lettuce  
(curled), G. K. Sirett; peas in pod, R.  
Glover; lettuce cabbage, G. Cousins.

Broad beans, G. K. Sirett; wide  
beans, R. Glover; dwarf green beans,  
E. Cole; runner beans, T. Clayton;  
broad Windsor beans, T. Clayton;  
cucumber, G. Cousins; rhubarb, G.  
W. Goodwin; Swiss chard, T. Clay-  
ton; marrow (white), J. Curry; mar-  
row (green), G. Cousins; pumpkin, J.  
Dawson; corn, G. Sirett; parsley, B.  
Mills; mangel wurtzel, G. Sirett.

Herbs: T. Clayton; peppers, G. W.  
Goodwin; egg plant, T. Clayton;  
tomatoes red, J. Boyle; yellow, G.  
Curry; green, G. Sirett; any kind, J.  
Curry; peas (shelled), T. Clayton.

Squash: Hubbard, J. Boyle; any  
kind, S. Humble; citron, T. Clayton;  
melon, T. Clayton; any other variety  
of vegetable, G. Cousins; strawber-  
ries, T. Clayton.

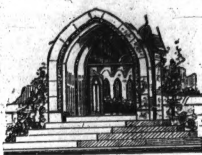

Wheat: G. Healy; barley, E. Cole;  
flax, E. Cole; alfalfa, G. Healy.

Flowers: Bouquet of garden flowers  
B. Milnes; asters, F. Padgett; pansies,  
W. J. Harris; marigolds, F. Padgett;  
carnations, F. Padgett; dahlias, J.  
Boyle, T. Clayton, G. W. Goodwin, E.  
Humble; sweet peas, T. Clayton, F.  
Padgett; zinnias, T. Clayton; petunias,  
F. Padgett; snapdragons, F. Padgett;  
roses, J. Curry; nasturtiums, F.  
Padgett; gladioli, F. Padgett; bal-  
sam, T. Clayton; collection of an-  
nuals, T. Clayton; collection of per-  
ennials, F. Padgett; celosia, G. W.  
Goodwin; ferns, T. Clayton; collec-  
tion of house plants, J. Curry; he-  
gonias, J. Kerr; geraniums, J. Curry  
plant of any other variety, R. Glover  
bouquet of wild flowers, Pearl Sirett.

Sports events during the afternoon  
were keenly contested.

The largest crowd on record attend-  
ed the dance at night, while others in  
large numbers availed of the opportu-  
nity of witnessing "Modern Times"  
with Charlie Chaplin at Cole's theatre.

Smoke issuing from a Chinese  
grave in Calgary caused some alarm.  
Investigation disclosed that a gopher  
had gone down, entered the casket  
and set fire to the match supply by  
nibbling. The gopher was seen pas-  
sing through Midnapore twenty min-  
utes later.

"Serve the Church that the Church  
May Serve You."

### BLAIRMORE UNITED CHURCH Rev. Albert E. Larke, Minister

Services Sunday next:  
11 a.m.—SENIOR SCHOOL.  
2 p.m.—JUNIOR SCHOOL.

Services Sunday next:  
10 a.m.—Sunday School.  
11 a.m., Morning service.

### THE SALVATION ARMY Coleman, Alberta Lieutenants Fitch and Frayn

Sunday services: Directory class at  
10.30 a.m. Sunday school 3 p.m. Sal-  
vation meeting 7.30 p.m. Come and  
enjoy an hour in God's house.  
Monday at 7 p.m.: Y. P. Legion.  
Tuesday, 7 p.m.: Home League, all  
ladies are heartily invited to attend.  
Friday, 7 p.m.: Young people's  
meeting.

### HILLCREST ENTERS FINALS

Hillcrest, Sept. 6.—Hopes of a pro-  
vincial championship coming to rest  
in Hillcrest rose higher here today.  
A scrappy base-stealing junior outfit  
reached the provincial finals, turning  
back Queenstown in two straight  
games.

The classic gang of ball tossers  
ever developed in Hillcrest, they con-  
tinued to thunder along the victory  
path, backing up brilliant hurling by  
equally fine support afield and at the  
plate.

Baffled by the curves of young  
Johnny Morris, Queenstown were no  
match for the hard-hitting locals, los-  
ing out by a 9-5 score in eight innings  
Sunday.

On Sunday, Ed. Seaman, ace junior  
moundsman, chucked splendid relief  
ball and wielded the Hickory effective-  
ly to personally lead his teammates  
to a 9-7 victory in the afternoon en-  
counter. The evening tilt, an exhibi-  
tion affair, was also won by Hillcrest  
— 4 to 4. Marcelin of the locals hit a  
home run with one on in the eighth.

Hillcrest now meets a strong Nac-  
mine outfit in the finals, but Coach  
Delini feels certain that if his pitch-  
ing staff is up to form, Hillcrest will  
give Nacmine the fight of their lives.

### DIVIDENDS IN NOVEMBER AND NO MORE SCRIP

Speaking at Raymond on Tuesday  
night, Solon Low, M.L.A., gave it as  
his opinion that the issuance of  
stamped scrip would cease as soon as  
the government's obligation with the  
city of Edmonton was implemented,  
adding that replacing the Prosperity  
Certificates will be the real Alberta  
Credit in the form of dividends con-  
tingent the government nothing in legal  
tender. It would be a matter of tick-  
ets.

First dividends, he thought, would  
be paid the first of November.

Rev. T. J. Wilkinson, Methodist and  
United church minister who came to  
Canada as a youth from England, died  
at his home at New Glasgow, N.S., on  
Sunday, aged 70. T. J. L. Wilkinson,  
of Cranbrook, is a son.

Coleman will erect a new six-room  
school building, to cost in the neigh-  
borhood of \$30,000. The building will  
have a frontage of 75 feet on Sec-  
ond street, on the same block of land  
with the central school.

## HEALTH --

The Greatest Asset you and your Family Possess. Why Neglect it?  
ILL HEALTH -- Your Greatest Liability -- WHY CULTIVATE IT?  
Wampole's Tasteless Preparation of Cod Liver Oil  
will safeguard you and your children against the danger signals of  
ill health. The greatest medical authorities in the world advocate the  
use of PURE COD LIVER OIL for the treatment of wasting diseases,  
particularly where there is a tendency to chest weakness or lung  
trouble. It is not only pleasant to the taste, but easily digested and  
rapidly assimilated. It restores the worn out cells, creates warmth  
and renewed energy, and increases weight more rapidly than any  
other remedy. FOR THAT STUBBORN COUGH IT HAS NO EQUAL.

Price for 16-oz Bottle, \$1.00

For convalescent, weak or growing children, a marked  
difference can be noticed after the use of one bottle.

WORLD HAPPENINGS  
BRIEFLY TOLD

George Simpson, 60, formerly well known in newspaper circles and editor of House of Commons Debates, died in hospital at Ottawa.

Civic census figures give Edmonton's population as 85,470, an increase of 4,000 over last year. It is the highest population figure in the city's history.

As an offering on the altar of road safety, 58 decrepit motor cars, valued at \$7,500, were set on fire and burned into twisted scraps of metal at Cape Town, S.A.

The Soviet Union is turning out about 5,000 aeroplanes a year in a gigantic building program. Louis Breguet, French builder, said upon his return from a trip to Russia.

Estimated to have been buried nearly two centuries ago, a skeleton of an Indian was unearthed at Mount Hope cemetery in Brantford, Ont., by workmen.

Farmers of southern Alberta are holding their wheat back from market, awaiting higher prices, a survey revealed. Deliveries to line elevators are far below average.

Hughenden Park, historic Buckinghamshire, was the home of Benjamin Disraeli, has been bought by Hugh Wycombe Borough Council as a memorial to King George.

There is to be no hiding place for the bachelor under the Italian flag. A decree published extended to East Africa a tax of \$9.20 a year on bachelors between 25 and 30 years old and about \$12.40 on those up to 65 years.

Lieut. G. K. Horsey, the Royal Air Force pilot who crashed on the liner Normandie in Southampton Docks on June 22, was severely injured by a court martial and sentenced to re-education.

## Had Struggle With Grizzly

## Mountain Climbers In Rockies Attacked By Mother Bear

The story of a struggle with an enraged mother grizzly bear protecting her cubs in interior British Columbia was related by Mr. and Mrs. Don Munday, Alpinists who returned to Vancouver from an exploration trip in the Coast Range.

As they completed a hazardous passage through a 12-foot cleft in Bearpaw canyon, Mount Silverthorne, the Mundays saw the bear looked down on a grizzly cub standing apparently alone.

Discarding their ice-axes, they focussed their cameras on the cub but before they could take a picture the roar of the mother grizzly distracted their attention.

She was standing on the same ledge as they, 30 feet away.

Unarmed, the Mundays began to yell, but the mother bear started her advance. About a yard away she swerved off but came back a moment later more fiercely than ever.

Finally Mrs. Munday succeeded in recovering one of the axes and, as the bear made a rush at Mr. Munday, causing him to trip, she rushed at the bear with up-raised axe and drove it off.

## Ownership Not Known

## No Rent Paid For Six-Flat Building In Chicago

For at least 10 years, 81-year-old William Hyde told Judge McCarthy, none of the tenants in the six-flat building in Chicago where he lived paid any rent—because nobody knew who owned it.

But Mrs. Delphina Lance charged Hyde pored as the owner and tried to have her evicted for non-payment of rent.

When Hyde admitted he was not the owner and didn't know who was, Judge McCarthy fined him \$100 and ordered an investigation of the mystery building.

## City Of The Future

A city of the future, designed for airplane and automobile commuters, with streets radiating from the centrally located airport, is envisioned by Dr. Ludo L. Zimmer, noted industrial engineer of Cleveland, Ohio.

The porpoise devours its own weight in fish about every 48 hours.

## Notable Pupils

## Interesting Record Compiled Of Names On School Wall

A. C. Baker, school clerk of famous Eton, since 1909, who has arranged for hundreds of boys to be flogged on the birching block, has retired on pension.

At his office just off school yard he said many of the boys who have been flogged in his time are now famous, and some occupy prominent positions in the government.

"It was one of my duties," he explained, "to see that boys reported to the headmaster for a flogging when they had been awarded this punishment."

Years ago Mr. Baker began the tremendous task of making a record of all the names of boys carved on the walls of upper school and the adjoining staircases.

This work he has at last finished, and he has presented a bound volume containing 18,000 names to the headmaster, Claude Elliott, and another copy to the school library. Some of the names go back to the 16th century.

"It was a most fascinating task," said Mr. Baker. "I found the names of Gladstone, Shelley and Peel, and in more recent times those of the Duke of Gloucester, King Leopold of the Belgians, the ex-king of Siam, Anthony Eden, and G. O. Allen, the cricketer."

"I found more Smiths than any other name—they total 145. The Campbells come next with 91, then the Scotts 82, the Wilsons 54, and the Hamiltons 53. The 29 Goughs all have their names cut together in one group."

"Every letter in the alphabet is represented, even Z with a solitary entry."

"This carving of names began shortly after the foundation of the college by Henry VI, and it became such a common practice that a few years ago the authorities officially recognized it."

"Nowadays boys who wish to have their names carved on leaving Eton pay a fee of 10s. (\$200) to have the work carried out by skilled craftsmen."

The headmaster, making a presentation to Mr. Baker on behalf of the staff, said that Etonians all over the world would learn with regret that the school clerk was retiring.

## Became Great Novelist

## Peasant Girl Once Forbidden To Learn To Read Or Write

Grazia Deledda, who died in Rome at the age of 61, was a peasant girl who became a prosperous novelist although her parents forbade her to learn to read and write. Signora Deledda won the 1926 Nobel Prize for literature with her novel, "La Fuga in Egitto" (The Flight Into Egypt).

Born in Sardinia, the girl was destined for a life in the fields. However, at the age of eight, she found a book. Anxious to know its contents, she went secretly to the home of the village schoolmistress and learned to read.

Four years later she sent a composition to a Rome newspaper and received 50 lire. Her parents, surprised that she could make money by writing, went about educating her. By her eighteenth birthday she had written and published a novel.

She was almost unknown, however, outside her own country when she won the Nobel Prize nine years ago. Years before, however, she had had a sudden popularity in America through the support of William Dean Howells, who said she was a model for American novelists.

She wrote fifty novels. She was one of the "regionalists" and most of her work was about her native Sardinia. The winning of the Nobel Prize gained her a place in the Academy of Immortals which Mussolini created in 1926.

A man received notice to vacate from his landlord. Believing it could not be enforced, he replied immediately:

"Dear sir,  
"I remain,  
"Yours truly."

Always a lover of beauty we are working upon motorizing glasses that will enable you to look at the landscape without seeing the hot-dog stands.

## Was Once Zulu Queen

## Aged Woman Now Lives In Rhodesia On Small Pension

Wizened, bent and poorly clad, but not without traces of royal dignity, a one-time queen has been listening to a native missionary conference at Bulawayo in Southern Rhodesia. Her name is Macebese, once one of the superior wives, or queens, of Lobengula, last King of the Matabele.

A little over 40 years ago, the slightest whim of Queen Macebese was law to whole regiments of plumed warriors. Today, with a middle-aged daughter, she lives on a small pension granted by the Rhodesian Government.

Behind her faded, but imperious old eyes and deeply furrowed face are memories that would make a score of books.

It was to Queen Macebese's father, Gungunyana, that Dr. Jameson made his famous journey in 1891 through forest and swamps to secure a concession over Gazaland to obtain a seaboard for what is now Southern Rhodesia. Dr. Jameson obtained the concession and permanently undermined his health in so doing, but the Imperial Government turned it down and today Rhodesia remains an inland State while the Portuguese rule over Gazaland.

The days of native wars, raids for women and cattle, the ritual execution of wizards, and the barbaric splendour of the last great Bantu warrior-king, died with Macebese's husband. Today her chief interest is the spread of Christianity amongst the black races who were once the subjects of Lobengula—the Terrible in War.

We are told of a machine with a human brain. And then there are humans with the brains of machines!

## Working To Music

## English Motor Company Finds It Creates Cheerful Atmosphere

Music has many uses outside of the field of amusement and entertainment. It has been said that music has the power to soothe the savage beast; that blasts from a trumpet of minor chords will cause a ferocious lion of turn tail; that music at the proper tempo will induce pupils in school to do neater writing. The Standard Motor Co., Limited, Canby, Coventry, England, one of the largest automobile manufacturers in that country, has found that the broadcasting of music in part of their factory has had a beneficial effect on the spirit of the workers, has created a cheerful atmosphere, and has caused no deterioration in efficiency and careful workmanship. —Oshawa Times.

## International Trade

## Australian Publisher Believes It Best

The best prevention of war, Sir Keith Murdoch said in an interview at Montreal, would be a loosening of trade barriers and a general move to make international trade more easily possible. The Australian publisher, on his way home after a trip through Spain, France, Germany and England, said "some of the best brains in England are working on a policy of bank credits for nations which are hard up and the freeing of certain channels of trade in the hope there will be a substantial revival of trade by this means."

A Hartford, Conn., luncheon advertisement: "Don't divorce your wife if you can't cook. Eat here and save her for a pet."

## You'll Crochet Your Way to Flattery

Household Arts by Alice Brooks

It's Done in the East of Stitches

## PATTERN 5679

Crochet your way to inexpensive flattery with this fetching, easily-made blouse of colored yarn. And if it's a smart "two-piece" your wardrobe needs, order pattern 5533—a trim skirt of plain crochet. This engaging blouse with its graceful jabot in open net stitch is made entirely in the simple lace stitch shown in the detail. Quickly made—this outfit! In pattern 5679 you will find instructions for making the blouse shown with long or short sleeves in sizes 16-18 and 38-40 (all given in one pattern); an illustration of it and of all the stitches needed; material requirements. Price 20 cents. In pattern 5533 you will find complete instructions for making the skirt shown in sizes 16-18 and 38-40; an illustration of it and of all the stitches needed; material requirements. Price 20 cents.

To obtain these patterns send 20 cents each (40 cents for both) in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

## EDMONTON "GRADS" HOME AFTER SUCCESSFUL EUROPEAN TOUR

The famous Edmonton "Grads" basketball team, generally conceded to be the finest aggregation of female basketball players in the world, has just returned to Canada after a successful "invasion" at Europe and the Mother Country. Standing on the deck of the "Empress of Britain" as she docked at Quebec, the members of the team are (front row, left to right), Helen Northrup, Doris Heale, Babe Belanger and Etta Dann. (Back row, left to right), Sophie Brown, Mabel Bunton, Gladys Fry, J. F. Page, the well-known manager of the team, and Noel MacDonald. The girls are wearing their Olympic blazers.

## SUNDAY SCHOOL LESSON

SEPTEMBER 13

## THE COUNCIL IN JERUSALEM

Golden text: For ye brethren, were called for freedom; only use not your freedom for an occasion to the flesh, but that ye be servants one to another. Galatians 5:13.

Lesson: Acts 15:1-35; Galatians 2. Devotional reading: Romans 8:1-10.

## Explanations And Comments

Trouble at Antioch of Syria, Acts 15:1. To the church at Antioch Paul reported "all things that God had done with them," and gave as the great result of their tour that "God had opened a door of faith unto the Gentiles." The door was too widely opened to suit the Jerusalem church when the news reached them. That God was no respecter of persons Peter had learned at Joppa, and the Jerusalem Church, after hearing all the circumstances, had glorified God, saying, "Then to the Gentiles also hath God granted repentance unto life." The truths, however, had been applied to only a few special cases, and the far-reaching consequences to the Church had not been foreseen. Now a crisis was reached. Certain members came from Jerusalem and declared that unless all were circumcised according to the custom of Moses, they could not be saved, thus insisting that Gentiles must follow the law of Moses before they could become Christians. As Paul wrote in the Galatians (2:4), "They came in privily to spy out our liberty which we have in Christ Jesus, that they might bring us into bondage."

The Earliest Formal Official Document of the Christian Church, Acts 15:22-29. The words of Peter and Paul and James carried the day. The whole church agreed to send two of their chief men, Judas and Silas, to Antioch with Paul to explain their decision. By these men a letter was sent which greeted the Gentiles as brethren, informed them that those from Jerusalem who had stirred up the trouble had not been acting under the authority of the church, commended Paul and Barnabas as beloved brethren who had hazarded their lives for the Lord, reported a unanimous decision, given through the guidance of the Holy Spirit, that no further burden should be placed on the Gentile Christians than the abstaining from the four things enumerated by James.

Note the tact with which the letter was written and the wisdom with which the decree was formulated. Had they declared in so many words that the rite of circumcision was abrogated, the Hebrew party in the church would have rebelled.

The Favorable Reception of the Decision, Acts 15:30-35. Knowing, as they did, the Pharisaic element in the church at Jerusalem, not to say the bigotry of many of its members, the church at Antioch must have awaited the result of the conference with considerable anxiety. And there was great rejoicing when the delegation arrived and the letter was read. The church in Jerusalem had yielded in what seemed to them a most important matter, the requirement of circumcision; and the church at Antioch readily agreed, on their part, to abstain from food offered to idols and from things strangled. There was give and take on each side.

## Expected Too Much

She said dreamily to him: "Yes, I could love a poor man." He asked her: "Then why not marry me?" She dreamily continued: "But I could not love a poor man enough to have the alarm clock wake me out of pleasant dreams to get up and make his coffee and fry an egg before he went to work every morning." And he said rudely: "Who said anything about there being an egg to fry?"

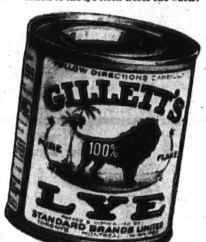

I'M LIMP AS A RAG... FROM RUBBING AND SCRUBBING

YOU'D SAVE LOTS OF HARD WORK IF YOU USED GILLETT'S LYE

WASHES DIRT AWAY —no rubbing and scrubbing

Cleaning jobs are quick and easy with Gillett's Pure Flake Lye. Use a solution of 1 teaspoonful dissolved in a quart of cold water. Off comes the dirt! And you do no hard rubbing. Use it for toilet bowls, too—and to clear sluggish drains. It kills germs, destroys odors. Never harms enamel or plumbing. Get a tin from your grocer—today!

\*Never dissolve lye in hot water. The action of the lye itself heats the water.

FREE BOOKLET—The handy Gillett's Lye Booklet shows how this powerful cleanser and disinfectant can save you work... contains complete instructions for making soap at home... tells how to keep farm equipment and buildings clean and sanitary. Be sure to send for free copy. Just write: Standard Brands Ltd., Fraser Ave. & Liberty St., Toronto, Ont.

## World Speed Record

## Made By Stream-Lined Jubilee Express in England

The stream-lined silver Jubilee Express of the London and Northeastern railway, running from Newcastle-on-Tyne to London, established a new speed record for British trains by reaching a maximum speed of 113 miles an hour.

The train, excluding the engine, passengers and baggage, weighed 270 tons. The figure is believed to be a world record for a streamlined passenger train.

## Plant Out Of Place

A weed may be described as a plant out of place; by its unsightly appearance, its pernicious habits of growth, method of spreading by root stalks and seed, it becomes a real menace to agriculture regardless of whether it is growing on highways, by-ways, public or private property.

## Letters Being Censored

Letters addressed to Spain, it is learned in London, are being opened and censored. Correspondents therefore are advised to avoid incautious comments which might prove dangerous to the people to whom the letters are addressed.

## THE ALLAN CUP

The possibility of Canada never again winning the Allan cup, emblematic of world amateur hockey championship, as hinted at by chairman Mulqueen of the Canadian Olympic Committee, is regrettable from some view points, but should be a matter of satisfaction in others.

If ever a trophy led to dishonest tactics it was the Allan cup. The race for the cup caused many a financial headache in the Maritime Provinces and we presume elsewhere. It incited a win-the-cup spirit that shut off the spirit of good sportsmanship and amateurism. It showed amateur local players to one side and gave prominence to outsiders whose only love for the place was the pay envelope. Mr. Mulqueen may say Canada has lost the cup because of continental "sham amateurism" but any one in the know might well ask how was the cup won when in Canadian competition. The pot should not call the kettle black.

If amateur sport is to be played in Canada, now would be a favorable time to put into competition a trophy that would and could be played for honestly and fairly. Canada would do well to bid a joint farewell to the Allan cup and to all the sham that has gone with it. The farewell to the "amateur" cup should also be a farewell to many of the big "amateur" officials.—Truro Weekly News.

THE WORLD'S GREATEST  
PUBLIC SERVICE GOOD TURN

What is described as the world's greatest Boy Scout public service good turn is contained in a report on the Solar Eclipse "Mela" at Kurukshetra, India, of June, this year, attended by over 300,000 pilgrims.

Normally Kurukshetra is a village, and its increase to the proportions of a large city by the arrival of Hindu pilgrims presents many serious sanitary and other problems. One of these is the control of the excited throngs during the progress of the eclipse, when the pilgrims are rushing for the bathing places.

In earlier years there were many drownings in the "tanks," or lakes, and deaths from crushing, and from snake bites and cholera. Since 1921, when the Boy Scouts began to assist the authorities, the casualties have steadily declined, until this year not one fatal accident or death from cholera was reported.

The Scouts' organization included an information Bureau, Life Saving Brigade at the tanks, Cholera Mobile and Mobile Health Brigade, Water Supply, Fire Brigade and a Traffic Brigade. Preliminary work included clearing snakes and the ground where the people camped.

The 200 trained Scout life savers constructed 25 rafts, each of which was manned by two Rover Scouts, with ropes and tackle. A number of drowning pilgrims were rescued.

The tremendous rush to the bathing tanks at the time of the actual eclipse, previously the cause of numerous deaths, was controlled by the maintenance of one-way traffic between the tanks.

The Mobile Cholera and Health brigades were credited with exceptional service. Each Scout was equipped with pint bottles of strong phenyl solution and kerosene for burning infected clothes, and a disinfecting sta-

WEEKLY NEWS LETTER  
FROM EDMONTON

(By T. B. Windross)

Edmonton, Alta., Sept. 5.—The special session of the Alberta legislature was prorogued Tuesday night, and it is now possible to take a more comprehensive view of what it accomplished in the way of legislation. To a certain degree it has silenced the critics of the Social Credit regime who have been complaining that "nothing has been accomplished by the Aberhart government."

This criticism was always a bit unfair, but there was not as much to show for its record before as the government now has to its name. Whatever the judgment may be as to the value or usefulness of the legislation passed, there can now be no saying "nothing has been done."

Outstanding among the 20 bills introduced in the session are the three acts that have been described as the most radical ever placed on the statute books in any province in the Dominion since confederation. These are:

1. The Act to provide credit for the people of Alberta;

2. The Act for the reduction and settlement of debts, and

3. The Act affecting municipalities' securities interest.

The act to provide credit for the people of Alberta is regarded almost as the Magna Charta of Social Credit in Alberta. It establishes the machinery for payment of the promised basic dividend to those who co-operate with the government in its plans. It provides for the establishment of the Alberta Credit House, through which the credit will be paid. Contrary to expectation, this act does not become law until proclaimed by the orders-in-council.

It has awakened wide-spread interest as embodying the main portion of the Social Credit plan, according to Premier William Aberhart, for Alberta. It defines the qualifications for receipt of dividends, the penalties for breach of the contract for co-operation, and the forms of registration, to be used in connection with the registering of citizens. It also legalizes the registration that has already been made. None of its provisions state that only Social Crediters can get dividends, but it does stipulate that those receiving the benefits of co-operation must co-operate.

The most radical legislation, however, was that dealing with debt adjustment in the province. In some respects the act for the reduction and settlement of certain debts is similar to the act passed by the Ontario government under Premier Hephurn, which made it possible to cancel the contracts of the Ontario Hydro-Electric Commission.

It extends its provisions for reduction of the principal of debts from 1932 onward, and reduces the debts of private persons to the extent of the interest and principal paid since July 1st, that year. Contrary to the view of some of its critics, it does not interfere with interest rates. Interest rates are within the jurisdiction of the federal government, but the principal within the power of the province to deal with.

The only way in which the act affects interest is by preventing the use of the courts of the province to collect more than five per cent on all debts. The courts are under the control of the provincial government and can be ordered by provincial statute to reduce interest.

A significant feature of this public service feat of Indian Scouts is that it is shared by boys of all creeds—Sikh, Hindu, Muslim and Christian—disregarding the caste lines of their elders and working together in complete unity under the banner of Scouting.

CANADIAN PACIFIC

face to order payment of more than a certain amount. That is how the new law overcomes the problem of cutting interest payments without touching interest rates.

There were two other acts passed affecting debts, and both of them are of importance. One embodied amendments to the present debt adjustment act. It extends the provisions five years to July, 1937, and makes it impossible to appeal from decisions of the government, through orders-in-debt adjustment boards. It also gives council, the power to declare a ten-year moratorium. This act became law and operative with the assent of the Lieutenant-Governor at prorogation.

The other debt act is that dealing with Municipalities Securities Interest. It prevents municipalities from paying more than three per cent interest on their securities.

All of these acts were fought by the opposition, though not with the concentrated energy of former days. There was a general realization that some sort of reduction in debts and interest payments was overdue, and that the party or politician who opposed such a set of laws would find itself and himself opposed to the wishes of a large majority of the electors. There are rumors that the legislation will be challenged on the grounds of constitutionality, but the federal government may be asked to disallow it. But word from Ottawa indicates there is very slim likelihood of the latter being done as there has been nothing of the sort done for many years. The Ottawa government is reported as being loath to take such action, especially where a provincial government received such a clear mandate to enact such laws as the Aberhart government did.

Premier Aberhart and Hon. W. W. Cross, minister of health, will spend most of this week in the Peace River country, and will address meetings in three constituencies there. Beginning at Peace River, Mr. Aberhart spent that town, then Wednesday at Fairview in the afternoon and Spirit River at night; Thursday at Beaverlodge in the afternoon and Grande Prairie at night; Friday at High Prairie in the afternoon and Falher at night.

Some guys in Alberta who are expecting a whole lot—practically a livelihood—for nothing were born just fifty years too soon.

A. B. King, vice-president of the Pernie Board of Trade; Thomas Beck, secretary; Thos. Uphill, M.P.P., and J. R. Nolan, government agent, comprised a party visiting from Vancouver to the Flathead oilfields last week end.

Announcement has been made of the appointment of K. C. Allen as general manager of the Alberta Pacific Grain Co., Ltd., succeeding J. R. Murray, who is now chief commissioner of the Canadian Wheat Board. Mr. Allen's headquarters are in Calgary.

For a new fish story, here's one: Two well known Pass disciples of Isaac Walton journeyed thirty miles by car to one of their favorite haunts on Wednesday. Arriving at the river side, they changed garb, got their rods in readiness, but found they had everything but the leaders and hooks. Now laugh, darn ya!

Ralph West was arrested at Truro, N.S., recently, to face a charge of "causing a public mischief," one week after he had roused Royal Canadian Mounted Police with the report that he had been held up by an armed bandit and his gas service station robbed of \$100. Police said he admitted there had been no holdup, after they had combed the province for four days in search of the bandit.

As an encouragement to the poultry raisers in the Province of Alberta who undertake Record of Performance under Federal jurisdiction, the Poultry Branch of the Alberta Department of Agriculture will provide free flock approval and blood-test service this year to all flocks entered and in good standing in R.O.P. Full particulars with respect to making entry in R.O.P. and details of the work may be obtained from the Dominion Live Stock Branch, Department of Agriculture, Ottawa. As the period for receiving entries closes early in the Fall, those interested are advised to act with as little delay as possible. G. M. Cormie, Poultry Commissioner, in making this announcement, points out that each year shows a decided increase in the demand for R.O.P. stock and this is another means whereby Alberta poultrymen can create additional markets for their products.

This would be a lovely world if men displayed as much patience in all things as they do in waiting for a fish to bite.

The Canadian Pacific's new streamlined train now touring Western Canada, will likely visit this district on Saturday, September the 19th. The train is comprised of engine 3001 and four cars. The head-end car is made up of a 30-foot mail compartment and a 39-foot 9-inch express compartment; the second car is a combination baggage car and coach with kitchen buffet, and seats 29 persons; the other two cars are first-class coaches mounted on roller-bearing trucks, and seat 51 persons each. The two coaches and baggage and buffet coach are completely air-conditioned, using the ice-activated system.

## LITTLE THINGS

By JANE DEE

HAVE you ever realized how important the "little things," such as hats, gloves, bags, shoes, hose and jewelry, are to your outfit? Costume perfection can be achieved only by careful selection of the correct accessories, matching them where they should be matched and using just the correct touch of contrast when it is necessary.

If you are one of those smart well-dressed women who has a new Fall suit, coat or frock and is in doubt as to how it should be accessorized, why not write to the Stylized Service created for you by EATON'S and I will gladly suggest what type of accessories you should have. Just give me the color, fabric and silhouette of your costume and I will be able to tell you what kind of hat, gloves, bag, shoes and jewelry to choose.

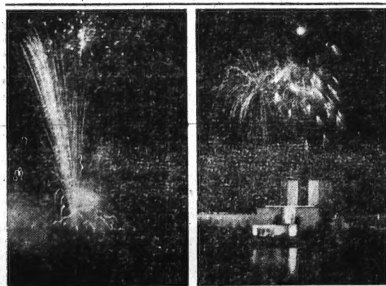

Remember that this service is available only at EATON'S Mail Order, Winnipeg, and that I act only in an advisory capacity.

Jane Dee

EATON'S

The SNAPSHOT GUILD

FIREWORKS PICTURES

In the picture at the left, an exposure of 3 seconds captured the light of the set pieces on the ground and the successive bursts meanwhile of the aerial display. An exposure of one minute recorded the buildings in the other picture.

CONSIDERING that it is an exceptional community that lets a summer go by without the celebration of some sort of event with a display of fireworks—Victoria Day, Dominion Day, a local anniversary, convention or fair—the opportunity to obtain novel and beautiful photographs of such a display is lacking to few. Don't fail to be on hand with your camera that night when the fireworks begin.

Fireworks pictures are easy to take. The brilliant, gracefully falling streams of light from bursting rockets and the dazzling patterns of set pieces, both can be recorded with any camera that has a "time" exposure adjustment, and when the films are developed and printed, the exclamations of "Ah! How lovely!" and "Oh! Isn't that beautiful!" are likely to be repeated. Also you will be proud of the pictures as photographic studies.

Use a large stop opening and with box cameras, the largest. Have the camera on a tripod or some firm

support that will allow its being pointed skyward. Set the shutter for "time". For the rockets and star shells, aim the camera at the space where they will explode. Open the shutter and let it stay open for two or three successive bursts, or, if the first one is large and graceful enough, turn the film at once for the next picture. You'll want variety in your fireworks pictures. Be careful, of course, to see that the view is unobstructed, and you must be prepared to close the shutter should any spectators get too close to the lens. For these aerial displays the chrome type of film will be quite satisfactory.

For large and brightly glowing set pieces, the camera may be held in the hands and snaps taken if you use the super-sensitive panchromatic film and a large lens aperture. Otherwise set the camera for time exposure. If it is desired to bring out buildings or other objects, give time exposures even as long as a minute.

JOHN VAN GUILDER.

## HILLCREST HAPPENINGS

The Hillcrest baseball juniors became Southern Alberta champions over the visiting Queenstown team by 9-5 and 9-7 in two successive games on Saturday and Sunday. Both games were played on the local diamond.

Margaret Adam is attending the Pincher Creek convent school for the term.

Mr. and Mrs. M. B. Walker returned Saturday from a three months' vacation in England and Scotland.

J. Gordon is spending a vacation in Edmonton.

Miss Jean Cruickshank returned to Calgary Tuesday to resume her musical studies.

Mr. George Bamborough and Mrs. S. Tabor and children are visiting in Trail, B.C.

John Makin was a Calgary visitor last week.

J. Dumas received injuries in the mine on Thursday evening.

The Hillcrest First Aid mine rescue team, consisting of W. Makin, A. Mark, T. Morgan, F. White and A. Grant, won the cup from the Camore team in Bellevue on Monday; each member of the team receiving a handsome gold wrist watch.

## COWLEY HAPPENINGS

Ronald Morrison has returned from a visit to Calgary.

T. Gushul and son Evan, of Blairmore, were visitors to Cowley this week.

Mrs. Joe. Faminoff, who died following an operation, was laid to rest in the Doukhobor cemetery Wednesday afternoon.

On Friday night a card party and dance was held in the Olin Creek school house under auspices of the Livingstone Ladies' Club. The proceeds will go to charity.

Word has been received that a son was born to Mr. and Mrs. Bert Connolly, of Lundbreck, last week.

The Ladies' Aid of the United church were entertained by Mrs. C. Latta at her home a few miles north of town on Thursday afternoon last.

Miss Mary Perceval, accompanied by her brother Marcel, left Thursday for an extended visit at Vancouver, Courtenay and other coastal points.

A good rain fell over this district on Saturday morning.

A farewell party was tendered Rev.

Father O'Dea in the Masonic hall on Friday evening. The early part of the evening was devoted to cards, whilst being played, at which honors were won by Mrs. H. C. Morrison, first; Mrs. A. G. Swart, second; Albert Hutton and C. J. Bundy were winners of the gent's first and second prizes. There were twelve tables at play. James Smith was master of ceremonies. The guest of honor was presented with a handsome bridge lamp, Mr. Bundy making the presentation speech, to which Father O'Dea replied very fittingly. Bringing the very pleasant event to a close, a couple of hours of dancing was indulged in to music supplied by local talent. Father O'Dea has been called to Bellevue, to take over the pastorate there. During his six years at Cowley, aside from having been a very influential worker in the interest of the church, he has made a host of friends throughout the district who will greatly miss him.

## BELLEVUE HAPPENINGS

Mr. and Mrs. H. Barfuss, Dorothy and Jack, left on Sunday for Portland and other U.S. points.

Miss Gladys Knowles entertained a number of friends at her home on Friday evening in honor of Miss Margaret Innis, who is leaving to enter the Royal Jubilee hospital at Victoria, B.C. Miss Knowles, on behalf of the assembled friends, presented Miss Innis with an aerograph case, for which Miss Innis thanked them in a few well chosen words.

Mr. and Mrs. J. L. Cousens left Sunday to spend a vacation at Vancouver and western U.S. points.

W. Goodwin and Bram returned Monday evening from Calgary.

Mrs. Fred McDowell is visiting with her parents here, Mr. and Mrs. A. Hallworth.

Mr. Howard Anderson, of Trail, who has been visiting here for the past month, returned to her home on Monday night.

Mrs. Thomas and daughters Alice and Marjorie, of Taber, spent the week end at the home of Mr. and Mrs. R. Shevels.

Mr. and Mrs. Scott, of Lethbridge, were visitors over the week end at the home of Mr. and Mrs. Wm. Prescott.

Mrs. Wm. Blinston, of Cranbrook, is visiting with her daughter, Mrs. C. W. Johnson.

Mr. and Mrs. A. May, of Medicine Hat, are renewing acquaintances here.

Mr. and Mrs. J. Curry left Tuesday afternoon for Vancouver and other coast points.

Miss Stella McDonald and Mr. Alfred Price left Monday to attend normal school at Calgary.

Mrs. F. Paigett, who has been visiting for the past two months in Eastern Canada, returned home on Sunday evening.

Mr. and Mrs. William Beck returned Monday from a two weeks' vacation at Spokane.

C. W. Ray spent the week end at Lethbridge.

Harry Bowley, of the Royal Bank staff, received notice last week of his transfer, and left Monday for Lacombe to assume new duties. The vacancy here is being filled by W. Harvey.

Mr. and Mrs. J. Radford, James and Fred returned Friday evening from a two weeks' vacation spent at Vancouver and western U.S. points.

Misses Frances Costick and Margaret Innis left Monday afternoon for Victoria, B.C., where they will enter as nurses-in-training at the Royal Jubilee hospital. Their many friends wish them success.

Mrs. Gordon McIntyre, of Lacombe, is spending a few days here with her parents, Mr. and Mrs. Dave Morris.

The dance held in the L.O.O.F. hall on Monday night in connection with the annual flower show was a huge success.

James Watson, of Michel, spent Labor Day here with Mr. and Mrs. D. Morris.

Mr. and Mrs. C. W. Johnson were week end visitors to Cranbrook.

Mrs. D. Truitt is visiting friends at Vancouver.

Mrs. Robinson and son Jack, of

Lundbreck, spent the week end here with Mr. and Mrs. J. Curry.

Miss Peggy Emmerson, of Coleman, spent the week end visiting with Mr. and Mrs. Chas. Emmerson.

Mr. and Mrs. R. Glover left Tuesday to spend a holiday at Vancouver.

## SOCIAL CREDIT, BILL IN BRIEF

Designed Bill Number 11. of the second session of the eighth legislative assembly, being "An Act to provide the people of Alberta with additional credit."

Provides for establishment of a state credit system with head office in Edmonton, and validates order-in-council of July 29, 1936, regarding registration of citizens on agreement and covenant forms for distribution of credit, presumably basic dividends, of amounts to be determined by the lieutenant-governor-in-council.

No citizens other than those registering under provisions of the act eligible for credit advances, and board not exceeding five members, to be appointed, to have authority to disqualify persons registering if declarations wilfully in error, or if absence from province without leave for more than 30 days undertaken, and if such persons default in observance of agreements signed.

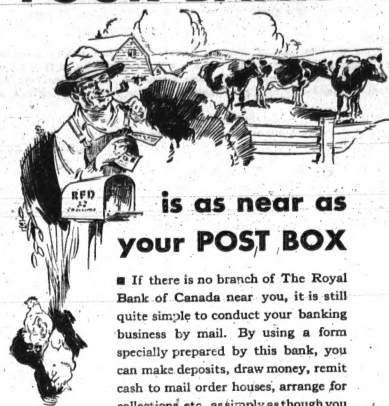

Superintendent, board and state credit houses to provide persons entitled to credit in such manner as may be prescribed by order-in-council, receive from any such persons currency and negotiable instruments and issue credit in return, and to keep an account of all credit transactions.

Credits received will not form a person's income and therefore will not be subject to income taxation levies.

Advance of credit may be supplied at the discretion of the board for which a charge of not more than two per cent per annum may be charged payable in cash or credit at the time of such advances, with drastic provisions for sales and seizures in case of default in re-payments.

Wide powers given provincial treasurer to "accept transfers of credit in satisfaction, or partial satisfaction of any claim which the province has

## YOUR BANK...

is as near as  
your POST BOX

■ If there is no branch of The Royal Bank of Canada near you, it is still quite simple to conduct your banking business by mail. By using a form specially prepared by this bank, you can make deposits, draw money, remit cash to mail order houses, arrange for collections, etc., as simply as though you were at the bank itself. Write to the nearest branch of The Royal Bank of Canada and ask for Form S.F. 531, "Banking By Mail". This pamphlet explains exactly what you should do.

THE ROYAL BANK

W. INNES, Manager

against any person for taxes."

All corporate bodies such as cities, towns, school districts and municipalities empowered to accept credit as payment for "rates, taxes, services" or other claims.

Covenants signed by citizens registering for the issue of credit not to be referred to the courts in any respect.

No persons may demand from the Alberta credit house payment in currency for credit.

Salaries and expenses of the board to be paid out of the general revenue fund of the province.

The act to be under the direction of Hon. E. C. Manning, minister of trade and industry.

A piece of poetry received by The Enterprise on Tuesday is withheld from publication because of being slightly too personal.

He had decided to give his men a days' outing in the country. With some diffidence one old workman approached him with the query: "What I'd like to know, boss, is are we going to take our wives, or are we going to enjoy ourselves?"

## A Quid Pro Quo

If the Dominion government is to open the gates ajar for the admittance of more British migrants to Canada on a colonization basis, it would seem appropriate to suggest that any agreement which may be made should include some provision for the sale of more Canadian produce in the Old Country.

From the viewpoint of Western Canada where new settlers must necessarily engage in a competitive venture with farmers who, in recent years at least, have been forced to offer their wares in narrowing markets, such a proposal would only be a reasonable quid pro quo for accepting new settlers.

It is true that colonization schemes in general and the Hornby scheme in particular, which are now being mooted and are apparently being accorded serious consideration in some quarters, contemplate safeguards to ensure that for at least five years after admittance to the country migrants would not become charges on the administration and that failures would be returned to the country of their origin.

While this may be regarded by some people as satisfactory on the face of it, such safeguards are not sufficient for the protection of thousands of farmers in the prairie provinces who during the past five or six years have not only experienced the greatest difficulty in making a bare livelihood but have had the misfortune to stagger—and are still staggering—under an accumulating burden of indebtedness.

Such colonization schemes, insofar as the west is concerned, have land settlement as their objective which means, of course, that the newcomers will be engaged in the production of agricultural commodities. If they are successful in their efforts the volume of produce offered for sale must necessarily increase with a resultant tendency to reduce returns to all producers of similar commodities.

The only way that this trend can be offset is the creation of new or expansion of existing markets for such produce and the latter might be attained by agreements which will ensure a greater volume of sales of Canadian farm products in the country from which these migrants come. Such agreements, if consummated, coupled with rigid guarantees that the new settlers will be self-supporting, might be expected to at least minimize any indirect loss which the older settlers would sustain as a result of ensuing competition.

New Zealanders, who have been sounded out on the subject of British migration to their country have something of the kind in mind, as evidenced by the report of William Teeling, who recently visited Australia and New Zealand to examine opportunities for British settlement in the two Antipodean countries for, with respect to New Zealand, he is quoted in a recent issue of the London Times as stating:

"From both these Dominions I came away with the impression of young people in young countries convinced of the future of their race, convinced that they had something to interpret from the West to their neighbors in the Far East, and convinced that they still had a lot to do in their own countries before they were ready to admit too many strangers. They seemed, however, quite willing to admit a few under careful and proper auspices."

"It struck me that the best opening was in New Zealand, and that there it could only be achieved through the New Zealand Government (no other large body being sufficiently interested) and by a definite economic bargain for the purchase of New Zealand goods."

Without going into details of the reasons advanced, Mr. Teeling found that prospects for British migration to Australia were practically hopeless at the present time.

Thus it would appear that any British colonization in New Zealand must necessarily be very limited and must be accompanied by an economic pact as a consideration, a suggestion that should certainly be given great weight by Canadian authorities before any agreement is entered into for additional colonization in this country.

Proponents of further colonization in this country have argued that new settlers are consumers as well as producers. This is true, but if they are to be successful they must produce more than they consume, in which event a market must be found for the excess production somewhere. If they do not produce more than they consume, colonization is for them a failure and it would be better for them and the country, if the scheme were abandoned before birth.

### Professor Makes Discovery

Finds Green Peppers Contain The Precious Vitamin C

The green peppers that Professor Albert Agnew-Gyorgy, Szeged, Hungary, spent at dinner one night gave him the chief source of precious vitamin C he had sought for a long time.

On that particular evening his wife had revoked her ban on his after-hours work, and he retired to his laboratory to continue his hunt for the anti-scurvy substance.

He took the peppers with him, intending to eat them later. But instead, he subjected them to tests just as he had almost everything else available—and found what he wanted in the vegetables that abound in the neighborhood.

In a few weeks he managed to produce a pound of pure vitamin C from 4,000 pounds of green peppers which, he discovered, have four times the vitamin C content of oranges and lemons, and are cheaper.

### Government Cleans Mint

Expects To Recover Large Amount Of Dust

Housecleaning may mean dust and dirt to most people, but it means gold, running to thousands of dollars, for the Royal Canadian Mint at Ottawa. When the smelting furnaces at the mint are moved to the new wing, officials of the institution where all Canada's coins are made and all gold handled, will thoroughly clean the rooms being vacated. According to J. C. Campbell, master of the mint, it is expected that a very large amount of gold will be recovered in the process of cleaning the floors, ceilings and walls.

This reclaimed gold consists of billions of tiny particles which have been carried off by smoke and gases from the huge smelting furnaces and which eventually come to rest on the walls and floors of the rooms.

### Manufactures Wind

Full-size aeroplanes can now be fully tested before being actually flown, in a wind-tunnel at the Royal Aircraft Establishment at Farnborough, England. In this huge apparatus winds up to 115 miles per hour can be manufactured to order.

### Wonder House On Exhibit

Everything Electrically Operated In New Type House

Ease and convenience for persons lacking domestic servants and spare time were revealed in a "Wonder House," on exhibition at New York.

There was an electric range which turned itself off when a roast was done to a crisp, doors that opened without being touched to admit housewives with armfuls of dishes, and illuminated keyholes for husbands arriving home late after long meetings.

In the nursery an electric eye set off a series of chimes when anyone approached the baby's cradle, and a burglar alarm buzzed when the window near the bed was opened, to make it difficult for kidnappers. When closet doors were opened, lights immediately flashed on inside.

An electrically-operated goldfish bowl with floodlights and an underwater air fountain required only one change of water each month.

### Another Mystery To Solve

Reason Silica Turns Into Poison When Pulverized

Science has one mystery yet to solve in allicosis, the most dangerous of all dust diseases.

The mystery is why silica, the dust responsible, turns into a poison when ground to particles the size of bacteria. The surprising behavior of silica was explained at the Harvard Tercentenary by Dr. W. Irving Clark and Prof. Philip Drinker at the Harvard school of public health.

Beach sand is almost pure silica. Silica is part of the beauty of opals and occurs in quartz, flint, sandstone, Jasper and many other common substances. In all of them it is harmless to human beings.

When ground fine enough to fly in the air particles of silica cause a distinct, new lung disease.

Trees breathe through tiny openings on the under side of their leaves. A single apple leaf has more than 1,400 of these pores.

Our idea of the usefulness of things is for a motorcycle policeman to stop a motorcar driver for making too much noise. 2161

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ready to Go

The liver should send out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons get into the body, and you feel sour, sick and the world hinders you. A new bowel movement doesn't always get the bowels going. It takes something that works on the liver as well. It takes those good old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Hereafter, when you make the bile flow freely, they do the work of a hundred laxatives and no more in your system. Ask for Carter's Little Liver Pills by name. Habitually reduce anything else. See.

### Used To Motor Cars

Reason So Many People Have Never Ridden On Trains

Every once in a while nowadays—much more frequently than in the past—stories appear in the newspapers about passenger trains, the service they give and the people who ride on them. And in some of these stories the fact is mentioned that many people are riding on trains for the first time in their lives.

These people are not from any backwoods region, either, where a train would be something of a curiosity. They are from towns and cities, and in the course of their lives have frequently watched trains go by, possibly gone to the station to welcome friends. But they have never been passengers themselves, and the reason is that they're young people, born since the day the motor car displaced the train as the chief means of travel.

People who have never ridden on trains are not common in Port Erie. There are too many railroad people here, and railroad men and their families get passes when they want to travel. But in other towns where railroads aren't a leading industry, it is not an uncommon thing to find many of the younger generation who have done all their travelling by car or bus.

Now, however, train travel is becoming popular again and the next generation may be more train-conscious. The railroads are responsible for a great revival of interest in their trains. In the last two or three years they have publicized their streamliners, made much of their improved service, and worked hard to eliminate the attitude of unconcern maintained toward the public by the railroads a few years ago.—Fort Erie Times-Review.

### Asks Farmers To Co-operate

Eastern Cattle Men Urged To Aid Feeder Plan

Hon. J. G. Gardiner, minister of agriculture, made an appeal for the cooperation of farmers of eastern Canada in the government's efforts to aid cattle breeders in the drought areas of the prairie provinces. He was addressing the livestock exhibitors at the Central Canada exhibition in Ottawa.

"I am told that here in the eastern area, between this district and the maritimes there is an abundance of roughage food," Mr. Gardiner said. "That is why we are hopeful of the success of our plan. But this plan will not be for the benefit of the western farmers alone, while it is true that we are offering to pay the fares of those who go west to buy feeder cattle."

"And if these cattle after being brought east are fed for three months, the government will refund half the freight paid to bring them here. There is a direct benefit to come for those who do take the cattle for feeding."

### Japan's Low Labor Cost

Enables Them To Undersell Other Countries' Home Products

The St. Catharines, Ontario, Standard says a copy of the Kait Gatos Weekly, U.S.A., received in their office, contains an article which shows that cotton hosiery from Japan is making tremendous strides in the market to the South. It is shown that if the tariff were raised fifty per cent to what it is now, Japan could undersell the home product by 18.6 per cent, all due to the low labor costs of the Japanese. Male hosiery knitters in Japan earn \$2.90 a week and female \$1.25. That is the story behind the industrialization and world market drive of the Japanese manufacturers.

A Scot entered the shop where he had recently bought a bicycle. "It's about the bike, mon," he said. "Hain't it arrived yet?" said the shopkeeper.

"It has," said Jack, "but where's that free wheel?"

Apricots, peaches, pomegranates, and oranges were referred to by the ancient Romans as "apples." They distinguished the fruits by the names of the countries where they were grown.

### Not Very Long Ago

Boston Had By-Law Forbidding Bathing Without Doctor's Order

Cleanly Anglo-Saxons on both sides of the Atlantic have been shocked at the revelation, by an American plumber who has just returned from a European tour, that though the Hohenzollern Palace at Potsdam contains 600 rooms, there are only two bath-rooms in it. And the plumber found, also in Germany, a castle of 260 rooms which had no bath-room at all.

But there was a time when the Boston city fathers passed a by-law forbidding anyone to have a bath except by doctor's orders, and this was not repealed till 1862. Again, just over 100 years ago, when the Lord Mayor of London asked for a shower bath to be installed at the Mansion House, the request was refused, as "the need of same has not been heretofore complained of."—London Answers.

### Building Without Stairs

Will Have Ramps So Car Can Park On Any Floor

Hotels and offices in which cars can drive to any floor and houses with more than one floor, but no stairs, are being designed in London. The buildings will have ramps, like those in some large garages. The young designers claim that their plan will do away with traffic congestion, make it possible for dwellers to drive their own cars into the building and park them outside their doors, make roofs into car parks, and provide overhead roads. The inventor is an architect, Dr. M. Hoenig. Already buildings on his principle are being put up in Leeds, England and in France. The Leeds building will contain a 150 bedroom hotel, a 170 car garage in the basement and a motion picture theatre. Cars can be driven right into the building, ascending to any floor.

### Little Animal Has Courage

Man Tells How Gopher Rescued His Helpless Mate

The gopher, unassuming and somewhat raty animal, attains heights of courage that merit him a better name, says A. D. Bain, superintendent of a chain of bungalow camps in the Canadian Rockies.

On a recent inspection trip, Bain saw as he approached in his car an injured gopher lying helplessly in the middle of the road. Nearby stood another of the little animals, bristling and showing his teeth, although obviously frightened.

When Bain stopped the car, the second gopher put his teeth into the scruff of his dying mate and dragged her to the safety of the long grass beside the mountain road.

### Lightning Kills Birds

Found Underneath Large Tree Which Was Not Struck

Included among the freaks of the severe lightning storm which struck Raleigh, North Carolina, was the destruction of between fifty and sixty sparrows roosting in a tree which was not struck by lightning. The sparrows were found underneath the large tree. Since the tree was not struck it is believed the heavily charged air, coupled with the current given off by electric wires in the vicinity, resulted in the electrocution.

### Gives Excellent Results

Excellent results from blood-testing poultry flocks are reported from all parts of Canada. A breeder in British Columbia who had his flock blood-tested last fall at a cost of \$16 sold hatchery eggs to the value of \$608 to one of the commercial hatcheries. At a sale of Record of Performance certified stock by an Ontario breeder to a breeder in the United States, R.O.P. certified females sold for \$5 each and an R.O.P. male for \$15.

## "The Object of his Affections"

You said it—Ogden's Fine Cut! Men who roll their own cigarettes have a yen for Ogden's, because Ogden's does roll a cooler, sweeter, smoother smoke. If you're not already acquainted with Ogden's, take a little tip—try this mellow, fragrant cigarette tobacco. Yes, sir, you'll like Ogden's Fine Cut and you'll like the way it's packaged, too—Cellophane-wrapped with the purple easy-opening ribbon. Be sure to choose the better papers—"Chanticleer" or "Vogue".

## OGDEN'S FINE CUT

P.S.—Your Pipe Knows Ogden's Cat Plug

### SELECTED RECIPES

**PUMPKIN PIE**  
1½ cups pumpkin  
1 desiccated flour  
1 cup sugar  
1 teaspoon ginger  
1 teaspoon cinnamon  
¼ teaspoon nutmeg  
¼ teaspoon mace  
¼ teaspoon salt  
3 eggs  
1½ cup milk  
Mix pumpkin, flour, sugar, spices and salt together; beat eggs, add milk and stir all well together. Pour into a deep pie plate lined with good pastry. Bake until firm (about 35 minutes) in a moderate oven.

### Just Recently Known

Twenty-five per cent of the vegetables and fruits people eat were unknown even ten years ago. They come from strains of plants that didn't exist a decade past. Cantaloupes, for instance; a popular item on many tables. A few years ago it was scarcely possible to produce them because they were afflicted by a mildew. A scientist discovered a species in India that resisted mildew and, by cross breeding, made the plants of this continent.

After 400 years, one of the best-known "ports of call" along London's waterway, The Turk's Head Inn, Wapping, has been closed.

### Hundreds Of Suggestions

Lord Mayor Of London Receives Ideas For Memorial

Several hundred suggestions for a King George Memorial have been received by the Lord Mayor of London and he and the King George Memorial Fund is considering them. Among them are renaming Trafalgar Square, King George Square, removing Nelson's Column and the Lions to Tower Hill, erecting statues of King George and his four sons, and placing the Cenotaph in the centre of the square are some. A food-lit Mausoleum in Hyde Park is another. The erection of a colossal food-lit statue on the cliffs of England, near Le-on-Solent, similar to the Statue of Liberty in New York, visible at sea for 20 miles, is still another.

### Has Supply Fillers

Leo M. Stenzler, of Walters' Union, No. 16, of New York City, by the genius of his supply fillers, can produce, at a moment's notice, from a plain table napkin a bishop's mitre, a wedding cake, a salboat or a clown grinning under a fool's cap. He demonstrated his prowess recently before a meeting of the Hotel and Restaurant International Alliance in Rochester, N.Y.

According to a correspondent of Collier's, an undesirable alien is a foreigner who makes more money than he does.

## CANADA MUST DECIDE REGARDING DEFENCE MATTERS

Vancouver.—Viscount Elibank, president of the British central chamber of commerce, voiced an admonition to Canadians to make up their minds whether or not they were to remain in the British empire or out of it.

Speaking of the possibility of war involving Great Britain, Viscount Elibank said:

"If London is vulnerable today then, to a lesser degree, other cities of the empire are vulnerable.

"We have got to make up our minds whether we are going to stay in the empire or out of it—there is no shirking that question. We must make up our minds now, once and for all, if, to us, the empire is worth having and worth saving."

The viscount did not reply directly to Defence Minister Ian MacKenzie's reference to him as a "pernigrating imperialist." After mentioning defence measures by other parts of the empire, he said: "I do not propose to speak to Canada for fear I hurt someone's susceptibilities."

Lord Elibank said that in Australia and South Africa, extensive vigorous preparations were being made for defence. Air strength was being given special attention. In other dominions the matter was being given serious consideration, he said.

Great Britain, to retain its place in the force of nations, must rearm intensively and be prepared for the worst, the viscount said.

Lord Elibank said it would be "an economic shame and great pity" if the "red route" of the Antipodes is ever broken. (The Red Route refers to the all-British route, British countries being colored red on the map).

In the house of lords and commons we have been impressing on our government that everything should be done, by subsidies or other means, to make possible the maintenance of this route in the face of present competition.

"It would urge upon all of you, whatever your governments, whether they be in Canada, Great Britain, Australia or New Zealand—I speak not as a politician—the necessity of arranging to preserve for the British empire this vital part of the red route."

## May Secure Post

Western Man Recommended For Radio Commission Board

Montreal.—In a despatch from its Ottawa correspondent, The Gazette says Leonard Brockington, prominent Winnipeg lawyer and former corporate counsel of Calgary, is being considered for the post of chairman, man or assistant chairman of the new national radio board.

Mr. Brockington's appointment as chairman would, the paper says, remove cause for the present division of opinion in ministerial circles between those favoring Major Gladstone Murray of British Broadcasting Company, and Mr. Brophy of the National Broadcasting Company and formerly of the Marconi Company in Montreal.

## Australia in Good Shape

New York.—Australia has achieved "almost complete recovery," according to Premier B. S. B. Stevens, of New South Wales. In an interview here Stevens, who also is colonial treasurer of that state, said by internal adjustment Australia had put herself in a position to employ foreign capital profitably.

## World Youth Congress

Geneva.—The world youth congress, seeking to unite youth for peace, opened with almost 1,000 delegates from 33 countries in attendance. The congress seeks a common plan of international co-operation for the prevention of war and the organization of peace by the youth of all countries.

## Visitor From Moscow

Winnipeg.—A. Easlov, chief of the state plant breeding fund of the Soviet People's Commissariat of Agriculture, Moscow, is here to study Canadian methods of wheat breeding and the production of rust resistant varieties of grain. He will visit Saskatoon and Edmonton also.

## Long Canoe Trip

Peace River, Alta.—H. S. Drinker of Philadelphia, his wife, two sons and two daughters, completed a 500-mile trip, in two canoes, down the Peace River from Summit, B.C. They left by train for home.

## Explains How Price Works

Canadian Wheat Board Thinks It Has Not Been Understood  
Winnipeg.—The Canadian wheat board issued a statement explaining the 1936-37 fixed price for wheat announced recently from Ottawa. The statement said:

"In some quarters the Dominion government's decision regarding the fixed price for wheat for the 1936-37 crop has been misunderstood.

"A fixed price of 87½ cents basis No. 1 Northern in store at Port William has been approved provisionally by the Dominion government. This fixed price does not become effective unless the closing price for No. 1 Northern wheat in store at Port William should go below 90 cents.

"The position, therefore, is that if No. 1 Northern wheat in store at Port William should, on any day, close below 90 cents the fixed price of 87½ cents becomes effective immediately. This fixed price would then be effective for the balance of the crop year, and irrespective of subsequent fluctuations in the open market price, the grower could deliver wheat to the board.

"It is clear therefore that producers have an absolute stop-loss at 87½ cents. Producers who believe that higher prices for wheat are warranted can hold their wheat with the assurance that under no circumstances will they have to accept a lower price than this for No. 1 Northern."

## Substitutes On Display

Germany Showing Synthetic Materials At Leipzig Autumn Fair

Leipzig, Germany.—The third reich's redoubtable efforts to put Germany's foreign trade back on its feet were reflected in the annual Leipzig autumn fair.

At Leipzig are first shown the latest achievements of German scientists in the way of "ersatz," or substitute materials for those that cannot be imported now. In view of foreign exchange considerations. Among these are various synthetic resins, materials, and the recently invented "ersatz" rubber.

A new artificial marble is shown in which the veining effect is produced by photo-mechanical means on glass. By a similar process ordinary leather is made to assume the appearance of reptile skin.

It is asserted the most experienced eye cannot detect the difference between the substitute and the real expensive article.

## Must Pass Driver's Test

Car Owner For 39 Years, London Motorist Must Comply With

The Law  
London.—Sir Walter Windham, pioneer motorist and a car owner for 39 years, has been ordered by Marleybone police court to pass a driver's test. Until the test is passed Sir Walter must exhibit the sign "L" (Learner) on his car front and aft.

As the king's foreign service messenger, Sir Walter was the first man to drive into Whitehall court with foreign despatches. It was stated in court that he had never had an accident.

But the Marleybone police magistrate disqualified him for a month, fined him £3 (£15) including costs on a charge of driving dangerously and ordered him to take a driving test before he drove again. The magistrate said it was obvious that Sir Walter's eyes and ears were not what they once were.

## The Straight Highway

First Step In The Direction Of Making Motoring Safe

Charlottetown.—The straight highway was the first step in the direction of safety first. A. A. Smith, chief engineer of the Ontario department of highways, said in a paper read before 200 delegates at the 22nd annual convention of the Canadian Good Roads Association.

Public works officials from all the provinces, motor vehicle officers and automobile association officials attended the three-day convention, general theme of which was improvement in Canada's highways.

Arthur Dixon, deputy minister of public works, British Columbia, was among those who addressed the delegates.

## New Chinese Railway

Hankow, China.—The Canton Hankow railway was opened formally, signalling a tremendous step in the development of Chinese domestic communications. The line, connecting the Yangtze river port of Hankow with the south coast metropolis of Canton, has been almost a half century in the building.

## Ride Above The Clouds

Vice-Regal Party Have Thrilling Experience In Rockies

Banff, Alta.—An automobile ride through clouds in the Rocky Mountains was added to the thrills experienced by Canada's governor-general, Baron Tweedsmuir, Lady Tweedsmuir and the vice-regal party on their tour of western Canada.

As Their Excellencies motored to Emerald Lake from Field, B.C., the clouds at times rested on the highway, and at other times rolled back, bringing into view majestic peaks. So taken with the drive was the king's representative that he expressed an intention to return here unofficially next year and take "a hunting trip."

## UNIFORM PLAN FOR MARKING ROADS IS URGED

Charlottetown.—Uniform highway marking throughout Canada was advocated before the Canadian Good Roads Association here by Arthur Dixon, deputy minister of public works for British Columbia. The suggestion was met with favorable comment from public works officials of the other provinces.

In his province it was the sentiment that any scheme of numbering and route marking would be based on a scheme which would be uniform for all Canada, "or at any rate, the western provinces," and it should also be in agreement with the system in use in the United States, "so that travellers crossing the international or interprovincial boundaries will be able to follow desired routes without confusion."

Of first importance, Mr. Dixon asserted, was the marking of "trans-Canada" highway, now nearing completion. He suggested a route marker bearing the word "Trans-Canada," a route number of one digit, the name of the province, and that all such markers should be uniform in shape, size, color and location.

The speaker suggested a special Dominion provincial committee be organized to deal with route marking uniformly, or alternatively, that the minister of transit at Ottawa be asked to submit the question to the permanent interprovincial committee on highway transportation.

Discussing Mr. Dixon's paper, Hugh A. Lumsden of Hamilton, Ont., suggested the provinces take up the matter of educating the "drivers of tomorrow" by conducting campaigns to teach school children the rules of safe driving.

## No Longer Shows Pennant

New York.—The French liner Normandie arrived, the blue pennant of Atlantic speed supremacy conspicuously absent from its masthead. Captain Pierre Thoroux, commander of the ship, said no attempt would be made this summer to regain the right to the emblem which was surrendered when R.M.S. Queen Mary established her record for the eastward crossing.

## HOPES TO SECURE WORLD'S ENDURANCE RECORD

A pioneer in the Canadian field of building powered model aeroplanes, Foster Stone, of Moose Jaw, Sask., was the first youth in Canada to build a model plane powered with a small engine. Some of his models will attain a speed of 40 miles an hour and an altitude of 2,500 feet. Foster hopes to capture the world's endurance record in the near future. At present it is held by an enthusiast in the United States.

## RELEASED IN POLAND

Mrs. F. G. Atkinson

Unconditional release of Mrs. F. G. Atkinson, wife of a Minneapolis business executive, who was sentenced to one year in a Polish prison for alleged violation of custom regulations regarding possession of foreign currency, was released at Warsaw following protests by representatives of the U.S. Department of State. Forced to halt near the border because of fire trouble, Mrs. Atkinson was arrested when she crossed into Germany for aid, and forgot to declare a letter of credit in her possession upon returning across the Polish border.

## Sends Congratulations

King Edward Pleased With Performance of White Star Liner

Queen Mary  
London.—The Cunard-White Star line announced that its president, Sir Percy Bates, had received two telegrams from King Edward congratulating the line on the Queen Mary's record-breaking westward and eastward Atlantic crossings.

The first was received immediately after the king had been apprised the liner had made the fastest westward run on record. The second message was sent when the Queen Mary passed Elbow's Rock in three minutes under four days to set a new mark for the voyage in either direction.

Sir Percy answered with wires of thanks and ordered the king's messages posted on the officers' and crew's bulletin board on the Queen Mary.

## Cleaning Up Slum Districts

Halifax.—Great Britain would be rid of slum districts within five years, declared Sir Raymond Unwin, a member of the British government's advisory committee on housing and planning, who with Lady Unwin arrived here on the steamship Newfoundland from Liverpool. A program was at present being executed to provide an additional 3,000,000 homes.

## Asks World Peace Army

New Zealand Advocates Creation Of Force For League

Geneva.—New Zealand, suggesting League of Nations reform, presented a memorandum advocating the creation of an international land, sea and air force to be placed at the disposition of the league to combat war-makers.

National plebiscites were suggested to approve the contribution of armed forces to the league. Separation of the league covenant from post-war treaties also was urged.

Disarmament and systematic application of the anti-war measures already included in the covenant are the best assurances of peace, Foreign Minister Halden Kohn, of Norway, told the League of Nations secretariat in a communication replying to Geneva's request for discussion of proposed reforms.

## DENOUNCES GRAB BAG RAIDS ON PUBLIC TREASURY

Calgary.—People of Canada are not seeking to change their historic form of democratic government for the alternative of Fascism or Socialism, declared Sir Edward Beatty, president of the Canadian Pacific Railway, here.

"They may be in error in their expectation of what the government can accomplish but they are not in the fatal error of thinking that tyranny or dictatorship is the way out of our troubles," Sir Edward told members of the Calgary Canadian Club.

"To me it appears certain," he said, "that any troubles which exist in this country can and will be cured by an improvement in our conduct of our present system of government and not by some radical change in the relations of the state and citizen."

The railway president defended political leaders against the charge that present conditions was "all their fault."

"In plain truth," said Sir Edward, "they arise from the incompetence of public authorities," and the "grab bag treasury raids" by groups seeking benefit without thought of ultimate consequences.

"Unchecked indulgence in a program of bounding public authorities to do things which public authorities should not do will end in the breakdown of democratic government by the bankruptcy of public authorities."

If such a breakdown occurred it would not be the fault of the ordinary citizen, he declared.

"However good a government we elect," Sir Edward added, "its skill in functioning will be only as great as the ordinary citizen will let it be."

The theory that parliament is nothing but a national board of directors, Sir Edward considered fallacious.

"Our present system of democratic government can never choose parliaments or legislatures competent to conduct the affairs of the state as a board of directors conduct the affairs of their corporation."

Discussing national transportation problems, he said Canada could gain nothing from a "Rip Van Winkle attitude towards modern transportation problems."

Sir Edward said it must be admitted that there never was a time in the history of Canada when democratic government was so little held in respect as today. "And yet," he added, "the average personal qualifications of the men whom we elect to represent us are at least reasonably high."

Of government in Canada today Sir Edward said the main trouble was simply that impatient citizens are constantly "bounding governments to do things which governments should not do."

"Much of the critical attitude of our people to their government results from that general discontent which the nation has experienced in its sudden and enforced change from a period of great optimism and expansion to one of lessened activity and even of economic retrogression," Sir Edward declared.

"After all this is a free country and even slightly angry squabbling about whose is the blame for things as they are is but a demonstration of the self-examination of a free people rather impatient at some economic confusion and distress."

The King George V. Memorial committee in Liverpool has decided that part of the city's memorial shall be the statues of King George and Queen Mary—to be erected near the Mersey tunnel.

## U.S. FLYERS MAKE RECORD FLIGHT ACROSS ATLANTIC

Liangdog, South Wales.—Forced down by an exhausted fuel supply after having flown the Atlantic, Harry Richman, the crooner, and his veteran pilot, soft-spoken Dick Merrill, slept in their plane, "Lady Peace," surrounded by curious cows in a remote Welsh field.

Merrill brought the plane down safely and undamaged about 175 miles from the flyers' Croydon goal, after they became lost over Wales due to failure of their radio apparatus. They flew around for about an hour and a half, Richman said, before their supply of 1,000 gallons of gasoline gave out, and they picked out the little field near this sparsely populated country.

Richman said they had landed at 3:30 p.m., British summer time (7:30 a.m. M.S.T.), making a total elapsed time of 17 hours and 53 minutes for the flight.

The flight was projected as a round-trip jaunt between London and New York, but when or whether the flyers would depart for Floyd Bennett field was undisclosed.

They flew in all about 3,300 miles. Without an accurate and official timing of their flight it could not be established whether the flyers had beaten the 10 hour and 50 minute record of Bennett Griffin and James Mattern from Harbor Grace, Nfld., to the Irish coast four years ago. Griffin and Mattern flew from Newfoundland to Berlin in 18 hours and 40 minutes.

After landing, Richman did all the talking for the pair, as Merrill, veteran of air-mail and transport flying, modestly secluded himself in the cabin of the ship.

Said Richman: "The plane ran beautifully. We didn't see the Atlantic for more than an hour at a time. The way we flew at about 11,000 feet. Everything went according to plan except that about halfway across the plane went into a steep dive and we both were thrown from our seats. That certainly was a scare."

"Our radio went out of commission while we were trying to talk to London. We circled about for an hour and a half before we could find a 'radio landing place'."

Richman, standing beside the door-looking Welsh folk who had come to see the ship.

"Are you a Welshman?" he asked, and when told of the location—"Well, I'm a Welshman!"

Surveying the scene with mock gloom, the crooner went on—"I never knew there were so many cows in the world and no transport flying, but still it's just too darn still around here."

## Submarine Armada

Japan Serves Notice Regarding Undersea Warships

London.—Japan served notice to the world that she will maintain at full force her mighty submarine armada.

Japan's decision, to retain submarines originally scheduled for destruction under the 1930 London naval treaty, was made known in a formal note to Great Britain.

The note, handed to the foreign office, signified Japan would keep in service, with 52,700 tons allowed, an additional 1,598 tons of submarine craft—the tonnage scheduled for scrapping before expiration of the London treaty, Jan. 1, 1937.

This would give Japan a strength in undersea warships one-third greater than that of either Great Britain or the United States.

The 1930 treaty provided the three nations should limit their submarine force to 52,700 tons each. To accomplish this, the treaty signatories would have to revert to the scrap heap before the end of the year.

Presumably, the Japanese availed themselves of the London treaty's escalator clause and requested retention of the submarines. The escalator clause provides any party to the treaty may increase naval strength in any category if it feels national security is jeopardized.

## A British Heritage

Toronto.—London, "greatest city of the greatest empire the world has ever known," was presented to the British people of Canada as a part of their heritage when Sir Percy Vincent, lord mayor, addressed the Canadian club. Sir Percy spoke of the city not only as "our" city but "your" city.

## MARK SARTORIS

FREE DELIVERY — Phone 293 — BLAIRMORE, ALTA.

Mrs. James Smith won the ches-  
terfield, second prize at the Elks-Cam-  
community carnival at Coleman on Mon-  
day night.

Constable J. P. Hartnett, of the R.C.  
M.P., was drowned Monday near Car-  
mack in the Yukon district when his  
canoe upset.

Blairmore won the baseball tourna-  
ment at Fernie on Labor Day, while  
Coleman returned with the football  
trophy.

Lord Tweedsmuir has been initiated  
into the Blood Indian tribe and titled  
"Chief Vitotoken" or Chief Eagle  
Head.

## Local and General Items

The Editor will be pleased to receive items for this section, regarding  
visitors entertained, parties leaving for holidays or short trips, bridge  
parties, local, etc. Please items in to 11 or hand them in at The Enterprise  
office no later than Wednesday evenings.

Mr. and Mrs. Lance Morgan were  
guests of Fernie folks last week.

Mr. and Mrs. W. J. Kraft and  
daughter, of Calgary, were visitors  
here this week.

There were over nine hundred en-  
tries at the annual flower show at  
Bellevue on Monday.

Frank Lonetti, of Seattle, was a  
visitor with his parents here last  
week.

Mr. and Mrs. W. A. Vaughn were  
week end motor visitors to Kallispel,  
Montana.

S. G. Bannan and J. R. McLeod  
motored to Spokane Sunday, return-  
ing Tuesday.

Nature has arranged things so that  
a poor man is able to display as many  
virtues as a millionaire.

Mr. and Mrs. Joe Misson and Mr.  
and Mrs. S. L. Trono and Beatrice  
were motor visitors to Spokane the  
early part of the week.

Miss Laura Freebairn, who has been  
spending the summer with her par-  
ents at Pincher Creek, left Wednes-  
day to resume her studies at the Tor-  
onto Conservatory of Music.

L. A. Giroux, prominent Alberta  
lawyer and Liberal member in the  
Alberta legislature for Grouard, died  
Monday in Rochester, Minn., follow-  
ing a critical operation.

Mr. and Mrs. Arthur Shearer stop-  
ped off in Blairmore on their way to  
Kimberley from a three weeks' hol-  
iday vacation. They were accompa-  
nied by their son George.

A package of Newfoundland bake-  
apples arrived in Blairmore Wednes-  
day, consigned to ye editor. Bake-  
apples are grown only in northern  
Newfoundland and along the Labra-  
dor coast. They are known as the fruit  
of the cloudberry.

A lovely shower was held last Fri-  
day in honor of Mrs. R. Large (nee  
Doreen Chappell) when a number of  
her friends called at the home of her  
parents, Mr. and Mrs. W. H. Chappell.  
The guest of honor was the recipient  
of many beautiful gifts.

Mrs. (Dr.) A. H. Denoon and  
daughter (Nan) Mrs. Patterson and  
three children, who spent the past two  
months at Northumberland Lodge,  
Toney River, have returned to their  
home in Lethbridge, Alberta.—New  
Glasgow Free Lance.

A second Moose River gold mine  
cave-in on Tuesday almost engulfed  
four youths who were walking along a  
road about 600 yards from the shaft  
which collapsed last April, imprison-  
ing Dr. D. E. Robertson and Alfred  
Scadding for ten days and causing the  
death of Herman Magill. The lads  
escaped.

Just for the sake of comparison,  
kindly compare a recent multigraph  
circular letter with the properly print-  
ed form turned out by The Enterprise.  
If the multigraph form is worth ten  
cents, the printed form is easily worth  
forty times that amount.

Tom Uphill, M.L.A. for Fernie,  
seems to have a way of putting things  
over—sometimes not very pleasant.  
He has had an experience or two in  
cars that went over, and only Satur-  
day was in a car that went over the  
road near Columbia Falls, rolling  
down an embankment some twenty-  
five feet to a landing place. All mem-  
bers of the party received a severe  
shaking up and a few cuts and bruises  
necessitating their removal to hospi-  
tal for treatment. The party were ac-  
companied by Hon. John Hart, min-  
ister of finance; Hon. Wells Grey,  
minister of lands; Hon. Frank Mc-  
Pherson, minister of public works,  
and Robert Wilkinson, M.L.A. and  
others, who were on an excursion trip.

C. W. May, official assessor, of Cal-  
gary, was in Blairmore and Coleman  
during the week.

Miss Fern Palmer, of Claresholm,  
has accepted a position as teacher at  
Castor, Alberta.

Editor Halliwell: "Well, I've been so  
lucky with a ticket, now I think I'll  
take up fishing."

Members in session at Edmonton  
recently did not take a portion of  
their pay in scrip.

One hundred and fifty members of  
Montreal's city police force have been  
dismissed.

Blairmore hens report a one hun-  
dred per cent increase in crop size  
since the recent rains.

Pat McCrohan, former proprietor  
of McCrohan's restaurant in Calgary,  
died at Marshfield, Massachusetts, on  
August, the 30th.

Fifty-year-old Guy Braymer, at  
Longview, Wash., was fined \$1000 or  
one year in jail on conviction of kill-  
ing a deer out of season.

Rev. R. Magowan, of Pincher Creek,  
will be the preacher at the United  
church anniversary services here next  
month. The exact date will be an-  
nounced later.

Ben Metcalfe, of Lethbridge, charged  
and convicted of speeding, decided to  
take a jail term of one day rather  
than pay a fine of \$15 and costs. Well,  
that was fifteen bucks easily saved.

Alex. Rattenin sustained a fractured  
pelvis when hit by falling rock in a  
pillar of the Greenhill mine, and is a  
patient in the local hospital. His  
partner, John North, escaped injury.

Mr. and Mrs. J. W. Blizard, Hazel  
and Roy, of Kimberley, stopped off  
in Blairmore on Sunday morning, en-  
route to spend the holiday with  
friends in Lethbridge.

A TEA and SALE of Home Cook-  
ing, under auspices of the United  
church Ladies' Aid, will be held in the  
church auditorium, on Saturday after-  
noon, September 19th, from 3 to 6.  
[54.-511.]

Roy MacEachern, son of Mr. and  
Mrs. J. S. MacEachern, who has been  
spending a holiday with his parents  
at Lethbridge from McMaster Uni-  
versity at Hamilton, Ontario, has left  
for the east and will sail on the Em-  
press of Britain tomorrow to do post-  
graduate work at Oxford University.

Thomas Uphill, M.L.A. for Fernie,  
has been advised by the British Col-  
umbia relief administration that Cor-  
bin single jobless cannot get relief,  
either at Fernie or Corbin. If they  
move elsewhere they will get relief,  
but there is no provision for assisting  
them in moving. "This means," he  
said, "they will have to beg or steal  
food while making their way out."

Making the journey alone, little 10-  
year-old Genovaita Grukevicius, niece  
of Mr. and Mrs. John Gurskie, of  
Coleman, arrived on Tuesday from  
Lithuania, from where she started on  
August 24th. Travelling through  
Germany, she took ship at Hamburg  
and landed at Harwich, England,  
crossing the Atlantic on the Mont-  
calm. Not expected so soon, the little  
girl was found by the night policeman  
sitting in the depot waiting room af-  
ter the early morning train pulled out,  
and given lodging at an hotel for the  
night, and her uncle and aunt located  
in the morning for the happy young-  
ster.

Labor Day took an accident toll of  
241 lives in the United States.

S. McDowell has resigned the sec-  
retary-treasurership of the United  
church.

Howard Stutchbury has resigned  
the post of Alberta trade commis-  
sioner after twenty-one years of service.

Robert Shearer, mechanic at the  
Red Trail Motors garage, is nursing  
an injured hand.

Cliff Madden has been elected to  
fill a vacancy on the Lundbreck school  
board caused through the resignation  
of D. Rhodes.

J. Angus MacDonald and T. Allan  
accompanied P. Connor to Calgary on  
Tuesday, where the latter will enter  
the Belcher hospital for treatment.

Former governments never had to  
beg for co-operation.

Upwards of an inch of rain fell in  
the Pincher Creek district on Satur-  
day last.

An exchange says Rev. Roy Tay-  
lor, J. Cox and Stanley Pearson weak-  
ened at Maycroft. So did we!

Nellie McClung and L. W. Brock-  
ington, K.C., have been appointed to  
the federal radio board.

Mr. Hunter, district representative  
of the North American Life Assur-  
ance Co., was in town from Coleman  
on Wednesday.
